## The Brutal Truth About Insurance Lead Generation in 2025

If you're not using AI automation, you're already 2 years behind your competition

### 24 Hours/Week Wasted

Your highest-paid team members spend 60% of their time on manual prospecting instead of closing deals. That's \$37,440/year in salary costs alone.

### 97% Failure ↘

Manual cold calling converts just 2-3% of prospects. You're literally throwing away 97% of your effort and getting only 8-12 qualified leads monthly.

### Revenue Roller Coaster

Inconsistent lead flow creates feast-or-famine cycles that destroy predictable growth. One month you're drowning, the next you're desperate.
